

Internet & Social Media Policy

Rationale

Cybersafety is a major concern facing schools. This does not only affect children and young people. DET employees in schools are also at risk of misusing social media or being targeted by a disgruntled young person or member of the school community. This is not a new concept. As with all forms of inappropriate behaviours the digital world has simply opened up a new platform for it to occur.

There are legal consequences for misuse of social media.

Teachers and other staff in schools have a responsibility to take reasonable steps to protect students from risks of injury, including those that may be encountered within the online learning environment.

Aim

- To provide a practical guide to support staff and meet the obligations and recommended standards of behaviours set out within existing instruments, policies and guidelines when using social media tools for personal or professional purposes.
 - To ensure Epping Secondary College complies with DET policy and legislation in regard to social media.
 - To help redress cyberbullying.
 - To ensure the school has in place strategies to enhance compliance with the Child Safe Standards 2 and 6.
 - To ensure the school discharges its duty of care towards students.
